Shipping Restriction Extension User Guide

Content

Introduction

The Magento 2 Shipping Restriction Module allows store owners to create and manage rules to restrict shipping methods based on various conditions such as shipping address, cart content, and customer groups. This guide will walk you through the configuration, usage, and advanced features of the module.

General Settings

Include tax in subtotal [store view]	Yes	▾
Use subtotal after discount [store view]	Yes	▾
Always show error message [store view]	Yes	▾

1. **Access General Settings:**

   Navigate to Mavenbird >Shipping Restriction > Configuration > Sales > Shipping Methods.
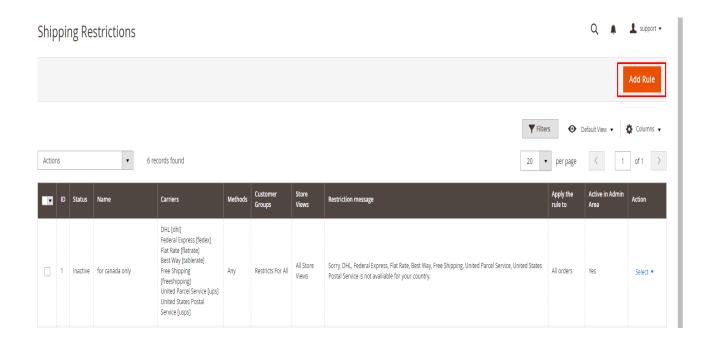

2. **General Options:**

   Include tax in subtotal: Choose whether to include tax in the subtotal for shipping restrictions.

   Use subtotal after discount: Decide if the subtotal after discounts should be considered.

   Always show error message: Enable this to display error messages when shipping methods are unavailable.

Rule Creation

Create New Rule:

- Go to `Mavenbird` > `Shipping Restrictions` > and click `Add New Rule`.

Rule Information:

- **Rule Name:** Enter a descriptive name for the rule.
- **Description:** Provide details about the rule.
- **Status:** Enable or disable the rule.
- **Customer Groups:** Select customer groups to apply the rule to.
- **Methods:** Choose the shipping methods to restrict.

Conditions:

- **Condition Type:** Define the type of condition (e.g., address, cart attributes).
- **Value:** Set the specific value for the condition (e.g., specific countries, cart total).

Actions:

- **Shipping Methods:** Select the shipping methods to be restricted when conditions are met.

Geo-Restrictions

Setting Up Geo-Restrictions:

- Navigate to the rule creation page.
- In the conditions section, select **"Shipping Address"** and specify countries or regions to restrict shipping methods.
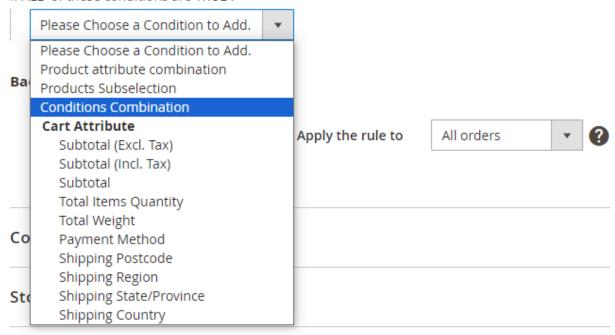

Usage Example:

- Restrict certain shipping methods for international orders while allowing them for domestic orders.

Cart Attribute Restrictions

Setting Up Cart Attribute Restrictions:

- In the conditions section of the rule creation page, select **Cart** Attributes such as **Subtotal**, **Total Items**, or **Weight**.

Usage Example:

- Restrict shipping methods for orders exceeding a specific weight or number of items.
